ENGINEERED FOR SAFETY

EASY ASSEMBLY & ONE-DAY INSTALLATION

Frame Diameter: 12' and 15'

Frame Height: 20"

Frame Construction: Heavy duty 14 gauge American galvanized steel tubular frame with 18 gauge custom made galvanized wall panels and all held together by Stainless Steel hardware which is standard on all frames.

MADE IN THE U.S.A.

HIGHEST SPRING COUNT IN THE INDUSTRY

***Springs:** Our 8.5" tapered springs are heavy-duty, U.S. made pre-galvanized steel. We also offer Stainless Steel springs as an option. Our spring counts are the highest in the industry with 120 springs on our 15' system and 96 springs on our 12' system.

ANTI-SLIP, HIGH PERFORMANCE JUMP MAT

***Jump Mat:** U.S. made, heavy duty, anti-slip, maximum air- low polypropylene jump surface with reinforced UV resistant stitching. Available with optional stainless steel D-rings.

***Optional Stainless Steel Upgrade.**

GREAT WARRANTY & SUPPORT

Frame Pads: Extra wide 18 gauge UV resistant vinyl with 1" closed cell foam core. We use a unique flexible bungee attachment system for longer pad life. Pads available in blue, green or grey.

Silencers: Keep the pads quiet and provide higher airflow for better bounce quality.

Maximum Jumper Weight: 450 lbs.

Warranty: 10 years on the frame. 3 years on the springs. 2 years on the jump mat and frame pad.

Improves children's balance
and coordination
